Range Road Veterinary Clinic

Tell me about your business

Range Road Veterinary will change the way you think about medical care for your pet. We are a full service companion animal practice that can take care of all your pet's medical needs. Routine care, illness and disease management, dental and oral surgery, soft tissue and bone surgery- we have practitioners who can assist you at every step of your pet's needs. We are locally owned and operated and it shows in every detail and every interaction. We are your neighbours and friends, so we can provide a personalized level of care that meets you at your needs- no judgment, no guilt. You know your pet best and we work with you to align your care program with your goals. We are Beaumont's Community Veterinarian- we are heavily involved in the community and contribute in many unique ways to local sports teams, non-profits, community facilities and local scholarships and initiative to support Beaumont and Leduc County. We are proud to offer Feline-Friendly services with our veterinarian who has a special interest in feline medicine, insuring your kitty receives the highest level of care, always tailored to your needs. We are a collaborative clinic, when you see one veterinarian, you are actually receiving care from a team of veterinarians and registered veterinary technicians- all of who will be contributing to your pet's care to insure they receive the very best.

Range Road has invested in training and certification for our staff, so you can be assured that all of our surgeries and anesthesia are provided only by licensed professionals. We have credentialed Wellness Registered Veterinary Technicians who can come into your home to provide medical procedures, treatments or routine exams and vaccinations. Our veterinarians are also available for in home services including in home euthanasia. Our Mobile services can make pet care easier in an already busy schedule and more accessible for those who have a hard time bringing their pet into clinic.

Come by for a happy visit, where we will be happy to give your pet some love and cookies to welcome them to the practice. Feel free to check out our in clinic Farmstand that features locally made and country inspired jewelry, candles and body care. We look forward to putting the care back into your veterinary services.

Tell me about your why? Do you love what you do?

Range Road Veterinary was opened by Dr. Katrina Ponich in 2019. Dr Ponich grew up in Leduc County and attended school and played on various sports teams in Beaumont. She truly believes "Life is Better in Beaumont!". She was raised with this slogan and for her, it held true. When deciding where she wanted to build her life and raise her babies, she knew her roots ran deep in the community and wanted the same for her children. Range Road is named for her home and in honour of her country roots.

Practicing at home has been the most rewarding experience. Seeing friends and neighbours in the exam room, running into patients and clients at the grocery store or out for a walk feels full circle. When you grow up in a small town, you truly love that community and want to reinvest in those people and spaces that made you who you are. Now, Range Road Veterinary is contributing to making Life Better in Beaumont by hiring locally, investing in local and actively participating in events to bring the community together, all while taking care of the furriest of family members.
